Wilson Bros., Geraniums

Add color to your home by using our colorful Geraniums in a thousand and one ways. They are equally beautiful as potted plants, in flower beds, cemetery urns, and flower boxes.

For variety, they blend wonderfully well with other flowers, thus giving you and unlimited opportunity for artistic expression.

When you order from us you get the best! We have the "know-how" backed by a quarter of a century ex-

perience—thus we only grow the best blooming and hardiest varieties. These are the proven choice of both the commercial grower and the housewife. Our Geraniums have semi-double or double blooms (unless noted differently in description). Plants are shipped with soil on the roots to insure safe arrival and speedy growth.

Geranium Growers for 25 Years

Beautiful Geraniums

Well-Rooted Plants 4 to 8 Inches Tall Shipped With Soil on Roots

DARK RED

AMERICAN BEAUTY

Large carmine red bloom or flower growing freely on a compact, quick growing plant.

BETTER TIMES

Huge deep red flower produced by stalky plant. Free blooming. Our best seller.

PRIDE OF CAMDEN

Ivy Leaf Geraniums

Pelargonium peltatum

Also Known as Ivy Geraniums and Trailing Geraniums

Here are listed the finest varieties in commerce today. Descriptions are brief, but as accurate as we can make them. Where short, medium and long growth is indicated, it stands for normal length of branches for the described variety.

JESTER

Double, large orchid pink—darker and more pinkish than Admiral Byrd—all petals with small rose stripes at edge of petals. Some lower petals with a small rosy spot in center. Top petals washed and marked rose, veined and spotted red, elongated white mark at base half of petals. Occasional flowers have petals that are partly striped lengthwise or are all rose; some umbels may have flowers half rose, or one or more flowers entirely rose red. Medium growth, very free flowering.

SALMON ENCHANTRESS

Sport of Princess Victoria, identical in flower form and habit of growth, but color is soft pink; lower petals with a small red spot in center, top petals with stronger markings. Petal edges with picotee stripes of rose. Beautiful variety.

SYBIL HOLMES

Double, deep silvery pink, open center. Rosebud type buds, large flowers, reverse of petals near-white.

EMILY SYLVIA

Single, with a few smaller curled petals in center, brilliant deep rosy red, slight orange flush near center. Good umbels, medium flowers. A bright color.

ESTELLE DOHENY

Resembles Charles Turner in size, doubleness and color, but has a decided salmon-orange glow. Large, long-stemmed umbels.

JOSEPH WARREN

Double, rich rosy violet-purple, deeper when in bud and on first opening. Large flower, very free bloomer. Medium grower, may be kept compact. The richest, deepest colored Ivy Geranium.

CAESAR FRANK

A brilliant rose pink flower. Medium growth.

PINK ALLIANCE

The large double flowers are a beautiful deep pink, reverse of petals near-white. Rather short, heavy branches, light green leaves with a darker zone. Long-stalked and very large umbels, free flowering. It appears to be a hybrid and resembles Alliance (Victory) in habit of growth and bloom.

NEW PURPLE

Practically the same as Joseph Warren. New Purple is a little more bluish cerise and not as round nor as broad-petaled as Joseph Warren. It's a little looser flower with more smaller petals in the center, and perhaps a little larger. Vigorous.

PRINCESS VICTORIA

(syn. La France, Enchantress) Double, white, penciled and feathered rose pink, especially near petal edges. Deeper coloring in sunny location, loveliest in part shade. Varies and sports freely. Large flowers, very free flowering. Sometimes slow to start, medium to long growth. A great favorite.

ROBER'S LAVENDER

Very double, orchid, color a little deeper than Bridesmaid. Medium large, almost rosebud-type flower, open center. Free blooming.

ROSE ENCHANTRESS

A sport of Princess Victoria, identical in flower form and habit of growth, but color is a lovely shade of orchid pink, small round crimson spot in all petals. Petal edges with picotee stripes of rose pink.

THE DUCHESS

Semi-double, white, faint orchid flush, short pink lines near edges of petals; top petals veined, red near base, small red mark in center. Deeper colored in sun, largest and best in part shade. Large flower, free blooming. Medium growth may be kept short. Excellent novelty.

BRIDESMAID

Double, soft orchid or cattleya pink, inconspicuous rose red veining. Finest coloring and size is obtained in partial shade. Several well-known growers consider Bridesmaid to be the finest of all Ivy Geraniums.

CAYUCAS

Double, soft rosy pink with a distinct fuchsia undertone. Top petals heavily veined deep violet from base to center spot of cerise red. Medium growth, large umbels. Large flowers.

ADMIRAL BYRD

(syn. Orchid Triumph) Semi-double, orchid or pinkish lavender, upper petals marked cerise red. Long, strong growth; large flowers.

ALLIANCE

(syn. Victory) Very large, double flowers of lilac white with spots of deep rose. Vigorous compact plant blooms freely.

NEON

Double, glowing cerise rose with violet undertone, inconspicuous mark in top petals. Very large flowers, blooms freely. Vigorous, long growth. A bright color of luminous quality.

30c each; 8 for \$2.00; 50 for \$10.00

Ivy Leaf Geraniums

CARLOS UHDEN

Double, cerise rose-red, open center lighter to almost white. Large, round, flat flower. Medium growth, may be kept short.

CHARLES MONSELET

Double, cerise rose-red. Buds rose-type, large flowers, petals twisted. Medium strong grower. Showy color.

CHARLES TURNER

Double, strong rose pink. Large flower, free bloomer. Long, strong growing and well known as the most popular pink Ivy Geranium.

CLIFF HOUSE

Double, light orchid in sun; white, flushed palest orchid or lilac in shaded place. Medium-long growth, good umbels, medium sized flowers, free flowering.

COL. BADEN-POWELL

(syn. Blush) Semi-double, white, flushed palest lilac top petals marked cerise. Large flowers, very free flowering. Medium growth, may be kept short. One of the finest.

COMTESSE DE GREY

Semi-double, soft satiny pink, top petals marked light violet. Medium flowers, free and continuous bloomer. Long grower.

DIENER'S LAVENDER

(syn. Giant Lavender, Lavender Giant) Double lilac lavender, top petals slightly marked cerise red. Very large flower, free blooming. Long, bushy grower. Distinct color (best in part shade).

GALILEE

Double, soft medium pink. Good sized, formal flower, floriferous. Bushy, average growth. Very popular pink variety.

GORDON'S GLORY

(syn. Scarlet Beauty) Semi-double, bright red, often with a narrow lighter stripe lengthwise on some petals. Medium flower, free bloomer. Short heavy growth, may be kept compact. Recommended pot plant.

GRINGOIRE

Double, rosy carmine, violet undertone. Large flower, long and bushy grower. Showy color.

INTENSITY

(syn. Etincelant, Red Majesty) Semi-double, brilliant deep orange scarlet. Large flower, free blooming. Long growth and outstanding bright red Ivy Geranium.

LUCKY STRIKE

Double, deep rose pink, top petals marked deep red near base. Medium large flower, floriferous. Vigorous, medium growth.

MODESTO

Double, cerise-rose to pink, slight "orange" flush at center, top petals with stripes and spots near base. Medium to long growth, large flower.

MRS. BANKS

Semi-double, bluish white, top petals marked light violet. Medium flower, free and continuous bloomer. Long growth. Fine garden variety.

MRS. H. J. JONES

Double, deep rose pink, slight salmon flush. Medium flowers, petal edges serrated. Long growth. The only "carnation-like" Ivy Geranium flower.

SALMON

Semi-double, rose pink shade of salmon, top petals with reddish veins near base. Medium sized flower. Strong, long growth.

SILESIA

Single, rose cerise, light violet undertone, top petals veined at base and have a dark spot in the center of petals. Medium large flowers. Medium to long growth. Quite distinct.

THE BLUSH

Double, silvery pink, reverse of petals white, flushed palest blush. Rosebud-type buds, medium flower, free blooming. Medium growth. One of the loveliest.

WILLY

(syn. Berkeley Red, Dark Red, Incomparable) Double, deep red. Large flower, blooms freely. Strong, medium growth, may be kept fairly short. One of the best deep reds.

ALBO PLENO

All white, rosebud type.

JUDY

Cerise Fuchsia, semi-double.

30c each; 8 for \$2.00; 50 for \$10.00

Hardy Chrysanthemums

The beautiful Chrysanthemum is becoming increasingly popular for the home gardener. We offer you the best varieties—those proven by research men to grow better under normal conditions. The Chrysanthemum grows best in a slightly acid, well-drained soil. In average garden soil, a good complete fertilizer should be used once a month during

June, July and August, three to four pounds per 100 square feet. The small, potted plants we ship you will bloom this fall when many of your other garden flowers have lost their bloom. You'll appreciate them for bouquets and baskets.

Wilson's Annual Flower Seed

FIRE CHIEF PETUNIA

ALL AMERICAN GOLD MEDAL WINNER

FIRE CHIEF is the reddest petunia you have ever seen—a new color in the dwarf growing class—a color possessing none of the harsh magenta tones under-lying so many other petunias.

The rich, velvety red flowers deepen somewhat toward the throat, thus adding to their beauty. They are nicely rounded and grow about 2½ inches across.

Plants are typical of the dwarf, compact, erect type; they reach a height of about 1 ft. in ordinary, good garden soil. If soil is too rich, plants will grow taller. Each plant is well-branched and covered with blooms from early summer until frost. Seeds may be sown directly outdoors when soil has become warm. For earliest blooms, start the seeds indoors in pots, seed-pans or shallow boxes about six weeks before your usual outdoor planting time.

Fire Chief is very vigorous, free flowering, easy to grow in any sunny location, most colorful and striking in beds, borders, edgings, window boxes and pots. Lovely for cut-flower purposes. See back cover.

PLEASE READ BEFORE ORDERING

INFORMATION, TERMS, ETC.

General Terms—Cash with order. We pay delivery charges on all orders of \$2.00 or more, to any point in the United States, unless otherwise stated in catalog. On orders of less than \$2.00, please include 25¢ to cover costs of postage, packing and handling.

Method of Shipment—All plants are carefully wrapped and packed. Shipment is made the best and cheapest way. Small orders are sent by Parcel Post, large orders by Prepaid Express. If you are unable to receive orders by Express, please advise when placing your order.

Special Services—Either Special Handling or Special Delivery may save a delay of one to several days, which could mean very much in the growth of your plants. If either service is desired, please include remittance to cover. On orders of less than \$5.00, the charges are usually 20¢ for Special Handling and 35¢ for Special Delivery. Air Parcel Post is very satisfactory, but expensive. If this method of transportation is desired, please include enough in your remittance to cover the additional charge.

Substitution—We attempt to keep a complete stock of the items listed in this catalog. As there are many factors entering into the production of plants, occasionally we are unable to supply certain items ordered. If we may substitute, please so indicate on your

order blank, and if possible, give second choice. Otherwise, a refund will be made on those items we are unable to ship.

We Guarantee Satisfaction—If you are not pleased with your order, or if it reaches you in poor condition, please advise at once. If possible, a replacement will be sent to you. If not, your money will be refunded. Should there be a mistake on your order, advise promptly, and we will do our best to correct it. No claims on damaged plants will be given consideration if made more than 10 days after receipt of your package.

All plants listed in this catalog are young, potted plants, in a healthy growing condition, and are shipped to you in the soil in which they were grown. Many of these plants are produced from seed, and, because of some variance in all flower seeds, occasionally a plant will be off color, or may grow a little different than noted in description. Even from seed, varieties should produce 95 percent true-to-name. Plants propagated from cuttings should be 100 percent true.

Because of the many conditions affecting plant growth, we make no warranty, express or implied, as to the productiveness of plants or bulbs listed herein, and we will in no case be liable for more than the original purchase price.

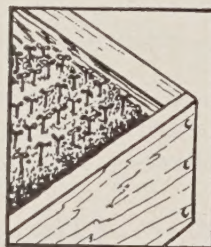

Have You Tried Terra-lite?

THE PERFECT GROWING MEDIUM

Here's a growing medium that overcomes "heavy-soil" problems. If you've had to grow plants in heavy, lumpy clay, you know how hard it can be. Terra-Lite breaks up heavy soil, makes it loose, friable. Weighs only 6 lbs. per cubic foot. Gives roots a chance to breathe.

Use it too for rooting cuttings, starting seeds, mulching, storing bulbs—dozens of gardening jobs. Once you try it, you'll never be without it.

2-Bushel Bag \$1.95; ½ Bushel Bag 95¢; 4 Qt. Bag 49¢
(Prepaid up to 1000 Miles)

Seeds germinate faster. Virtually no damping off.

Great mass of hair roots in half the time.

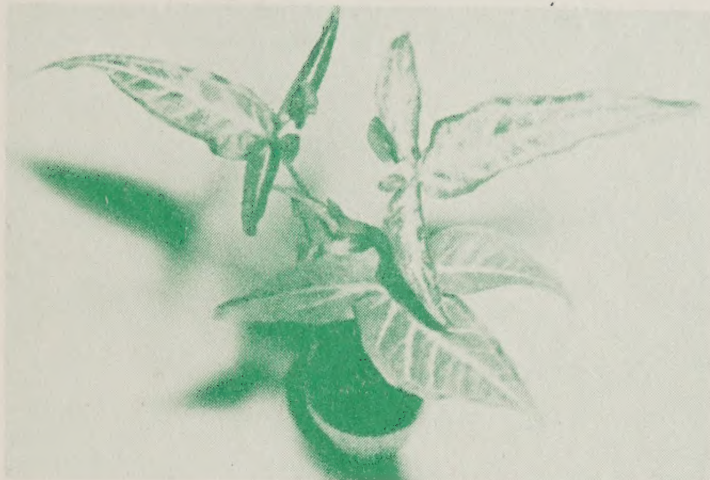

Stored bulbs stay firm and plump.

Perfect as a mulch for all plants.

TRI-LEAF WONDER

(NEPHTHYTIS)

A strange and fascinating foliage plant because of unique arrow-shaped leaves. Really three leaves in one, two small leaves growing at right angles and slightly above the large main leaf. Dark, glossy, green edge that irregularly fades to a light olive in the center of the leaf. You just have to see this plant to appreciate it. Wonderful for height in any planter or just a nice plant to place anywhere in your house.
